

Issues to be resolved:
-Must have an Eye wash!
-Workbenches for some of the equipment 800mm deep
-Material Storage
-Student project temporary storage?
-Fenced in area outside the back door to the shop

Other Equipment we will need:
-Equipment will potentially require 2, 3, or 4 phase power
-Power and vacuum to all equipment (preferably overhead)
-A computer and a barcode/qr scanner (For tool checkout)
-We will need racks and bins for small tools

List of Equipment
(at double scale)
Scale 1:6000
